Important Notes ↗

This welcome pack is prepared with a view to furnish you with important information that a member may need when he/she arrives in Qatar to take up an employment or to set up his professional firm. The contents should be construed in conjunction with the regulations or laws that are in force in the country.

The socio-economic parameters constantly change in this vibrant economy. The information included in this welcome pack is based on factors as on 31st December 2025. The reader is requested to discuss the facts with the concerned authorities to understand the changes, if any, that may have taken place since the date of publishing this booklet.

Information contained in this document is purely for internal circulation and meant for ICAI members to give them an overview of the activities of the Chapter and to facilitate and guide the members.
This document does not promote Qatar either for practice/employment. The users of this information need to update the requirements before taking any decision in this regard. The benchmark of success of individual members may differ between individual members depending upon the skills, aptitude and professional dexterity.

About ICAI ↗

The ICAI – An Overview

The Institute of Chartered Accountants of India (ICAI) is a statutory body established by the Chartered Accountants Act, 1949 for regulation and development of the profession of Chartered Accountants in India. The Institute, functions under the administrative control of the Ministry of Corporate Affairs, Government of India. The ICAI is the largest professional body of Chartered Accountants in the world, with a strong tradition of service to the Indian economy in public interest.

The affairs of the ICAI are managed by a Council in accordance with the provisions of the Chartered Accountants Act, 1949 and the Chartered Accountants Regulations, 1988. The Council constitutes of 40 members of whom 32 are elected by the Chartered Accountants and remaining 8 are nominated by the Central Government generally representing the Comptroller and Auditor General of India, Securities and Exchange Board of India, Ministry of Corporate Affairs, Ministry of Finance and other stakeholders.

Over a period of time the ICAI has achieved recognition as a premier accounting body not only in the country but also globally, for maintaining the highest standards in technical, ethical areas and for sustaining stringent examination and education standards. Since 1949, the profession has grown leaps and bounds in terms of members and student base.

(That person who is awake in those that sleep, shaping desire after desire, that, indeed, is the pure. That is Brahman, that, indeed, is called the immortal. In it all the worlds rest and no one ever goes beyond it. This, verily, is that, kamam kamam: desire after desire, really objects of desire. Even dream objects like objects of waking consciousness are due to the existence of the self.

No one ever goes beyond it : of. Eckhart : 'On reaching God all progress ends')

Our Vision ↗

ICAI aims at harnessing the opportunities and addressing the challenges presented by the rapidly changing environment so that, by 2030, ICAI becomes World's leading accounting body, a regulator and developer of trusted and independent professionals with world class competencies in accounting assurance taxation finance and business advisory services.

ICAI Vision 2030 emphasizes four elements:

- To be World's leading accounting body: ICAI envisions becoming the world's leading accounting body by playing a predominant role in setting world class standards in identified service areas developing thought leadership and research that addresses concerns of countries, developed, developing and under-developed.
- A regulator and developer of Trusted and Independent Professionals: ICAI will lay further thrust on its regulatory and developmental role that sets the highest standards of professional and ethical conduct of its members as a core value. Each and every member of ICAI will not only have the obligation to maintain exacting standards of clarity, transparency and disclosure and present an independent, informed and balanced opinion but ICAI will make examples of delinquent members to ensure this core value is embedded in the DNA of its members.
- With World Class Competencies: ICAI will ensure that members have the right skills to serve global markets which are regularly updated and are relevant in the changing economic order. ICAI will provide holistic education, effective practical training and continuous professional development to ensure that the knowledge base of the profession keeps pace with emerging global practices and innovations.
- In accounting, assurance, taxation, finance and business advisory services: ICAI will strengthen facilities available for providing education, training and continuous updating of knowledge as also research and development relevant in current times to establish thought leadership in these areas where members of ICAI have been providing services.

Mission 2030 ↗

ICAI will leverage technology and infrastructure and partner with its stakeholders to:

- Impart world class education, training and professional development opportunities to create global professionals.
- Develop an independent and transparent regulatory mechanism that keeps pace with the changing times.
- Ensure Adherence to highest ethical standards.
- Conduct cutting edge research and development in the areas of accounting, assurance, taxation, finance and business advisory services.
- Establish ICAI members and firms as Indian multi-national serve providers.

The Mission 2030 of ICAI lays focus on following key elements:

- **Global Professionals:** ICAI will develop skilled professionals with competencies to service clients not only within India but across the globe that requires technical skills as also cross-cultural appreciation and understanding of global needs. As one of the largest producers of CAs in the world, we will make sure our members can take the rightful place in the global talent pool.
- **Independent and Transparent Regulatory Mechanism:** ICAI will further strengthen and visibly demonstrate its regulatory role through proactive, visible, timely and unbiased action. We will create public awareness and sensitize all stakeholders to the effectiveness of the quasi-judicial role of ICAI and ensure inclusion of wider section of users of member services in carrying out our role as regulator.
- **Highest ethical standards:** ICAI will continue to inculcate the highest ethical standards amongst its members to assist them in upholding the values that the accounting profession stands for. We will continue to include and emphasize ethical values as part of the education and training of students and members.
- **Cutting-edge research and development:** ICAI will become the hub of valued Thought leadership and innovation in the field of accounting, assurance, taxation, finance and business. ICAI will devote resources and create an enabling environment to become the predominant contributor to setting standards across the world in these fields. We will support, fund and take up research on issues that impact has locally and globally.
- **Multi-national Service Providers:** ICAI will facilitate the Indian professional services firms and professionals to establish as multi- national service providers and help them in harnessing global opportunities on one hand and assist them in building capabilities on the other.

The six strategic priorities and Action Plan in line with Vision 2030 are:

1. Create enabling framework for and facilitate Indian firms and professionals to leverage global opportunities.
2. Leverage national leadership programme to assume leadership in regional and international accounting fraternity.
3. Revitalise education and training systems and establish and enabling ecosystem to produce globally competitive accounting professionals.
4. Adapt regulatory mechanism to the changing times.
5. Undertake branding and awareness campaign to enhance public perception of ICAI and professionals affiliated to ICAI.
6. Strengthen organizational infrastructure and technological capabilities to improve engagement with all stakeholders.

↗ President's Message

CA. Prasanna Kumar D

President, ICAI

Dear fellow Chartered Accountants,

The accountancy profession continues to evolve in an increasingly globalised environment, as businesses expand into new markets and economic ties grow stronger across borders. These developments require Chartered Accountants to be equipped with the knowledge and skills to navigate diverse regulatory requirements while upholding the principles of integrity wherever they practice.

Reflecting this changing landscape, the Institute of Chartered Accountants of India (ICAI) has built a substantial international network, with 55 Chapters and 30 Representative Offices spread across 85 cities in 47 countries. This presence enables the Institute to remain connected with its members around the world and to strengthen its engagement with the wider international professional community.

The standing of Indian Chartered Accountants in global markets rests not merely on their technical knowledge, but also on their dedication to professional excellence and ethical conduct. These qualities have helped to establish their credibility and open avenues for them to contribute to businesses across diverse economies.

For ICAI, the responsibility towards its members extends beyond qualification and professional practice in India. It also encompasses helping members to understand the opportunities available beyond national borders and equipping them with the information necessary to pursue these opportunities. The Global Career E-Kit is one such initiative: a single, accessible resource that brings together relevant guidance for members considering careers or professional practice overseas, helping them to address their queries and better understand the prospects in different jurisdictions.

This updated Global Career E-Kit serves as a practical guide for Chartered Accountants exploring professional opportunities in Qatar. It provides an overview of Qatar's economic environment, major cities, cultural practices and other useful information to help them prepare for working in the country. It outlines the accountancy profession in Qatar, including auditor registration procedures, audit and consulting firms, and employment opportunities. The booklet also provides information about the activities, objectives and contact details of the ICAI - Doha (Qatar) Chapter. For aspiring and future professionals, the E-Kit offers a useful starting point to understand the local professional landscape, identify potential opportunities and make informed career decisions.

I commend the ICAI - Doha (Qatar) Chapter for this valuable initiative, which brings together practical guidance to help members to explore and pursue professional opportunities in Qatar.

I am confident that this E-Kit will be a useful resource for Chartered Accountants aspiring to expand their horizons, navigate the international professional landscape and pursue new avenues for career growth.

Best wishes,

CA. Prasanna Kumar D

President, ICAI

↗ Chairperson's Message

CA. Arun Somanath

Chairperson - ICAI Doha Chapter

Dear Members and Professional Colleagues,

It gives me immense pleasure, on behalf of the ICAI Doha Chapter, to welcome you to Qatar and to present this Global Career E-Kit, developed to support Chartered Accountants who are exploring professional opportunities in Qatar.
The world of accountancy is becoming increasingly global, and ICAI's Vision 2030 places strong emphasis on developing globally competent professionals who can contribute across markets and embrace emerging opportunities. This E-Kit is a step in that direction, providing members with practical information to help them understand and navigate the professional landscape in Qatar.

As the first overseas Chapter of ICAI, established in 1981, the ICAI Doha Chapter has had the privilege of serving generations of Chartered Accountants in Qatar. With a strong and growing membership base, our Chapter remains committed to professional development, knowledge sharing, networking and creating opportunities for our members.

Whether you are considering employment, pursuing an articleship opportunity, exploring professional practice, or simply seeking to understand Qatar's business and financial ecosystem, we hope this E-Kit serves as a useful starting point. It brings together information on the accounting and auditing profession, regulatory requirements, employment opportunities, financial institutions and other aspects of the professional environment.

At the same time, we encourage every member to independently verify applicable laws, regulations and requirements with the relevant authorities, as these may evolve over time. The E-Kit is intended as a guide and a starting point for your professional journey.

Qatar continues to offer a dynamic and diverse professional environment, and Chartered Accountants have an important role to play in supporting businesses and contributing to the wider economy.

We look forward to welcoming you to Qatar and to the ICAI Doha Chapter.

Warm regards,

CA. Arun Somanath

Chairperson – ICAI Doha Chapter

Vice-Chairperson's Message

CA. Dewaki Nandan Tibrewal

Vice Chairperson - ICAI Doha Chapter

Dear Professional Colleagues,

It gives me immense pleasure to present this year's e kit, a resource designed to guide and support members who aspire to build their careers or establish professional practices in Qatar. This initiative reflects our Chapter's commitment to empowering Chartered Accountants with the knowledge and tools needed to navigate opportunities in this dynamic region.

Qatar, with its robust economy and progressive vision, continues to attract professionals from across the globe. At the ICAI Doha Chapter - the first overseas Chapter established in 1981—we take pride in being a bridge between global talent and local opportunities. Over the past four decades, our Chapter has grown into a vibrant hub of professional excellence, fostering collaboration, learning, and community engagement.

We are living in an era defined by artificial intelligence and digital transformation, where adaptability and innovation are key to success. The e kit not only provides practical insights into life and work in Qatar but also reflects our Chapter's forward looking approach in equipping members to thrive in this evolving landscape. By combining traditional values of integrity and professionalism with modern tools and technologies, we aim to ensure that our members remain future ready.

As Vice Chairperson for the term 2026–27, my focus is on enhancing the Chapter's offerings to deliver meaningful professional growth, networking opportunities, and long term value. Together, we will continue to nurture intellectual capital, embrace innovation, and uphold the standards of excellence that define our profession.

I extend my heartfelt gratitude to all members for their trust and support. Let us move forward with confidence, leveraging both our collective wisdom and the transformative power of technology to shape a brighter future for our fraternity in Qatar.

With best regards,

CA. Dewaki Nandan Tibrewal

Vice Chairperson, ICAI Doha Chapter

About ICAI Doha Chapter ↗

ICAI Doha Chapter was established in the year 1981 and is the oldest among the 54 overseas Chapters of the ICAI. The membership of the Chapter has grown steadily since its founding days and presently has over 400 members who hold key positions in various private and public companies and are actively involved in support and development of the accounting profession in Qatar.

The Chapter is actively involved in enhancing and updating the professional knowledge of its members and to meet this objective, periodically organizes professional lectures and seminars. The Chapter is affiliated to Indian Cultural Center under the aegis of Indian Embassy in Qatar. ICAI Doha Chapter is registered under Qatar Financial Center (QFC) laws. The Chapter is the first professional membership body to be licensed in QFC.

The day-to-day affairs of the Chapter are managed through its Constitution and by an elected eight-member executive committee headed by the Chairperson. Successive Chairpersons and their executive committees have worked tirelessly to ensure the growth of the Chapter and the satisfaction of members' professional needs. The highlight of the annual events calendar is the two-day annual conference, presented each year by eminent personalities from different fields of accounting, taxation and auditing. Also keenly awaited each year is the annual CA Cricket Fiesta, a fun day for the CA fraternity to enjoy with their families.

ICAI Doha Chapter aspires to evolve and grow as a professional body, advancing the cause and building up the profile of Indian Chartered Accountants in Qatar. It organizes various events of professional interest that help the members to build skills, promote quality of services and in the process encourage them to adhere to the highest ethical standards and professional integrity.

The strong membership base in Qatar, participation in local professional and cultural events, networking with professionals colleagues in the region, support of the ICAI and the overall commitment of the committee members over the years have significantly enhanced the 'brand value' of Indian Chartered Accountants ("CA") in the region, while at the same time preserving the ethical values followed by every fellow CA.

Apart from the distinction of being the first overseas Chapter of ICAI, the Chapter also has the distinction of being the first overseas Chapter to elect a lady as Chairperson, when Ms. Leena Dasani was elected Chairperson in 1999. First time in the history of the chapter, for the term 2018, the chairperson and vice-chairpersons were women. This is very much aligned with the objective of Inclusion, which is fostered in the Chapter at all levels.

Mission and Vision

- To carry on activities for the extension of knowledge in the field of accountancy, auditing and allied subjects of professional interest.
- To help better equip members of the Chapter and other professionals for discharging their obligations.
- To spread education in matters relating to accountancy, auditing and allied subjects of professional interest.
- To carry out directives, policies, guidelines and initiatives of the Institute.
- To assist the Qatari nationals and institutions to develop matters relating to accountancy, auditing and allied subjects of professional interest; and
- Generally, to do all acts and undertake all activities necessary, conducive, incidental or ancillary to attain the above-mentioned objects and are in the interest of the members of the Chapter and profession in general.
- Conduct social, cultural and sports events for the participation of members.

Objectives of ICAI Doha Chapter

- To serve as a medium for facilitating sharing of professional knowledge and expertise among members and CA Students including in the fields of accountancy, auditing and allied subjects contributing to professional, social and personality development
- To help in better equipping members of ICAI Doha Chapter in discharging their duties
- To carry out applicable and agreed directives, policies, guidelines and initiatives of the ICAI.
- To assist members in developing matters relating to accountancy, auditing and allied subjects of professional, social and personality development interest
- To facilitate employment opportunities for the members
- To organize social events for the members and their families and to provide a platform for them to interact socially and network as part of the ICAI social responsibility initiative
- To provide a platform to strive and reach out to global recognition through mutual effort and understanding along the pathway of professional excellence.
- To do all acts and undertake all activities necessary, conducive, incidental or ancillary to attain the above-mentioned objectives and are in the interest of the members of the Chapter and our profession in general.

Key Activities of ICAI Doha Chapter

1. **CPE Events**: The Doha Chapter regularly organizes seminars, workshops and professional development events throughout the year for the benefit of its members. The Doha Chapter organizes CPE events on varied conventional and unconventional topics ranging from Indian Budget to Sportsmanship, Leadership and Corporate Synergy, Cyber Security and Financial Crimes, Robotics, Estate Planning and Blockchain.

2. **CA Examination:** Since December 2016, ICAI Doha Chapter works with ICAI, New Delhi and the Embassy of India in Qatar to hold the CA CPT, Intermediate and Final Examinations in Qatar. ICAI Doha Chapter is involved in getting the examination center approved, ensuring smooth conduct of CA Exams, meet all requirements of ICAI for conduct of exams at an overseas chapter and act as examination observer on the days of exams.

3. **Sporting and Social Events:** The Doha Chapter organizes various social events such as musical concerts, family fun day, cultural events, cricket tournaments etc. These events along with entertainment provide the members and their families a platform to meet and bond.

4. **CSR Activities and Social Work**: Collaboration with local entities such as Indian Embassy, IBPC, Hospitals and other institutions to design, implement, and promote socially responsible initiatives that benefit the community, environment, and economy. It acts as a bridge, ensuring alignment with CSR goals and societal needs. It also provides an opportunity to the members to provide community service opportunities.

↗ About The Country

Qatar is a country in West Asia which occupies the Qatar Peninsula on the northeastern coast of the Arabian Peninsula in the Middle East; it shares its sole land border with Saudi Arabia to the south, with the rest of its territory surrounded by the Persian Gulf. The Gulf of Bahrain, an inlet of the Persian Gulf, separates Qatar from nearby Bahrain. The capital is Doha, home to over 80% of the country's inhabitants, and the land area is mostly made up of flat, low-lying desert. The country covers an area of 11,581 square kilometers and the population of the country was 3,370,611 as in March 2026, of which 303,000 were Qatari nationals.

Qatar – pronounced ‘kuh-TAR’ – is located on the Arabian Peninsula, jutting into the Persian Gulf. The first evidence of human settlement dates to the 6th millennium BCE. For centuries, Qatar was largely populated by Bedouin tribes and a few fishing villages, shaped by the rule of Arab tribes, Portuguese explorers, Ottoman leaders and the esteemed al-Thani family, whose leadership has significantly influenced the nation's heritage. Qatar’s destiny changed when oil was first discovered in the Dukhan Field in 1940, transforming its economy from pearling, fishing and trade to one of the wealthiest nations in the world.

↗ Major Cities

1. Doha

Doha is the capital and most populous city of the State of Qatar. A spectacular skyline welcomes you to Doha, Qatar's thriving coastal capital on the Arabian Peninsula. It offers an experience of the Middle East's most enchanting cities and feel more than ever before. Doha is a melting pot of over 94 nationalities that welcomes visitors with open arms. It is an ideal place to start your journey of exploring all that Qatar has to offer. Doha is Qatar's fastest growing city, with over 50% of the nation's population living in Doha or its surrounding suburbs, and it is also the economic center of the country.

Doha was founded in the 1820s as an offshoot of Al Bidda. It was officially declared as the country's capital in 1971, when Qatar gained independence. As the commercial capital of Qatar and one of the emergent financial centers in the Middle East, Doha is considered a world city by the Globalization and World Cities Research Network. Doha accommodates Education City, an area devoted to research and education.

The city was host to the first ministerial-level meeting of the Doha Development Round of World Trade Organization negotiations. It was also selected as host city of a number of sporting events, including the 2006 Asian Games, the 2011 Pan Arab Games and most of the games at the 2011 AFC Asian Cup. In December 2011, the World Petroleum Council held the 20th World Petroleum Conference in Doha. Most notably, the city hosted the 2012 UNFCCC Climate Negotiations and hosted a large number of venues for the 2022 FIFA World Cup.

In May 2015, Doha was officially recognized as one of the New7Wonders Cities together with Vigan, La Paz, Durban, Havana, Beirut, and Kuala Lumpur.
Qatar is not just about its capital city Doha, and the way it's held on to its heritage even while moving towards the contemporary. It's not just about modern structures and high-rise buildings; it's not just about museums and beaches; it's not just about man-made islands or purpose-built hills. There's a lot more to this small, but happening, country. With a long pristine and beautiful coastal line and plenty of sunshine all year round, Qatar is a destination where you can have it all.

Apart from Doha, Qatar is dotted by other small cities and towns, and while some are port towns, others are more significant as they represent the oil and gas industry which thrives in these areas. Visitors will discover dilapidated and abandoned villages, archaeological sites that give a little peak into the area's history; inlets; islands; natural mangroves; golden sands; blue-green waters; and a lot more.

2. Al Khor

Al Khor is a city in Qatar located in the north. It's the capital of the Al Khor and Al Thakira Municipality, and one of Qatar's main hubs of the oil and gas industry. The city was established in 1972, and, at the time, pearl trading was one of Qatar's main sources of income.

Al Khor started off as a small and isolated settlement that earned its income from fishing and pearl diving, but today, it's approximately 16,000 square meters and one of Qatar's main cities after Doha. Al Khor is a treasure trove of exciting things to do and see. It has some of Qatar's vibrant natural wonders like the ancient Ain Hleetan Well and the Al Khor Towers, the Thakira Mangroves, Purple Island, Al Farkiah Beach the Al Khor Park and Zoo.

3. Dukhan

Dukhan is an industrial city in Qatar's western region that became popular when oil was discovered there. Almost all the people who live there are employees of Qatar Energy. The city is off limits for others and photography is not allowed within Dukhan. The area around Dukhan is, however, very popular with visitors as there are lots of interesting sites and attraction to see in the area.

4. Mesaieed

Mesaieed is another oil and gas hub in Qatar and during the 20th century was recognized as an area of prime importance. In 1949 it became QatarEnergy's tanker terminal, to grow Qatar's oil industry, because of the deep waters that surrounded the area, and also because it was close to Doha. Located in the southeast of Qatar, it houses employees of QatarEnergy, but that isn't it's only claim to fame. Mesaieed is surrounded by beautiful beaches and golden sand dunes.

Major Attractions

Beaches

Qatar's neighborhoods boast waterfront views, sandy beaches, retail, exhibition spaces and eateries, reflecting the rich diversity of this compact state.

Qatar has some of the most amazing beaches in the region, with clear water and pristine views. There is plenty of marine life that can be seen, especially on the northern and eastern side. Beaches are mostly clean and are safe for families and children. These beaches are maintained by the respective municipalities and offers facilities such as barbeque areas, washrooms, changing rooms and shaded seating areas. The beaches are strictly no-driving zones and not crowded.

With rich cultural history, world-class art and food scenes, spectacular natural wonders and the world's best shopping and wellness destinations to be discovered, Qatar provides the perfect experience.
You will meet a new generation of curators, chefs and explorers who keep Qatar's heritage, crafts and local cuisine alive. Young travelers from all around the world can be inspired by Qatar's youth, who share exciting ways to engage with local culture, from exploring interactive museums to meeting falcons at the souq and tasting delicious Qatari foods.

Souq Waqif

Souq Waqif or "the standing market") is a marketplace (souq) in Doha, in the state of Qatar. The souq sells traditional garments, spices, handicrafts, and souvenirs. It is also home to restaurants and shisha lounges. The original building dates back to the late 19th to early 20th centuries in a traditional Qatari architectural style. It was renovated in 2006.

Museum of Islamic Art

It is commonly regarded as the most impressive and important cultural attraction in Qatar, the Museum of Islamic Arts welcomes thousands of visitors each week. The collections inside the museum originate from local artists, not to mention artwork from other Islamic artists from across the Muslim world. The top two floors are set aside for permanent exhibitions, while the ground floor is where much of the temporary displays are held.

Sealine Beach

Sealine Resort's unique location offers the widest variety of activities available only in this place in the State of Qatar. Coastal pursuits, desert safari Qatar experiences, and Sealine camping are just some of the many activities available nearby, accessible to all of our guests, and all managed by an experienced team of welcoming professionals.

Coastal pursuits, desert safari Qatar experiences, and Sealine camping are just some of the many activities available nearby, accessible to all of our guests, and all managed by an experienced team of welcoming professionals.

Some Useful Information ↗

1. Climate

The spring season in March is warm and pleasant with occasional thunderstorms. The frequent winds from the northwest are cold in winter and spring and hot in summer. Southeasterly winds, usually hot and damp, spring up between July and October; hot and dry south winds prevail in spring and early summer. The shamal, a north westerly wind common during May, June and July, causes dramatic sandstorms.

2. Language

Qatar's official language is Arabic; however, English is widely understood and often used as a business language. Other languages spoken by the large expatriate community are Urdu, Hindi, Malayalam, Bengali, Tagalog (Filipino), Persian, Punjabi, Pushto, etc.

3. Religion

Qatar is an Islamic state with multi-religious minorities like most of the Persian Gulf countries with waves of migration over the last 30 years. The official state religion is Sunni Islam. The community is made up of Sunni and Shi'a Muslims, Christians, Hindus, and small groups of Buddhists and Baha'is. Qatar is also home to numerous other religions mostly from the Middle East and Asia. The country has also hosted numerous interfaith dialogue conferences.

3. Major Customs & Practices

The influence of Islamic and Arab Culture on Qatar's architecture, music, attire, cuisine and lifestyle is prominent as well. The most distinctive characteristic of local Qatari culture is Diwaniya, which involves large reception rooms used for male social gatherings attended mostly by family members and close friends.
Seafood has been the mainstay of the Qatari diet for centuries. The Arabs in the Persian Gulf region played a crucial role in the spice trade between India and Europe, and spices have remained an important ingredient of Qatari cuisine.

Before the discovery of oil, Pearl hunting was a crucial part of Qatar's economy. Pearl fishery, known as Ghaus, suffered decline after the advent of Japanese pearl farming. However, Qatar's pearl industry laid the foundation of its rich maritime history. Dhows, large wooden ships made from teak wood imported from India, became an indistinct part of Qatar's maritime fleet and dhow building is still practiced.

Qatari clothing is similar to other Persian Gulf countries, typically consisting of a ghutra, agal, and thawb for men, and an abaya and shayla for women. Face veils, usually either a niqāb or burqa, are sometimes worn by women.

4. Currency

The local currency is the Qatari Riyal ("QR") which is freely convertible and QR 1 equates to US$ 0.274 or INR 22.90 approximately (as of date). Money can easily be changed at multiple exchange houses.

ATMs are acceptable at malls, petrol stations, supermarkets and marketplaces. Credit cards are widely accepted.

5. Healthcare

Healthcare in Qatar is excellent and there are no special immunization requirements to enter but a good insurance cover is recommended. Driving in Qatar is on the right. Visitors with an international license can hire a car but should be mindful of steep fines for exceeding speed limits.

6. Economic Environment

Qatar has a GDP (PPP) of US$310 billion and a per capita income of US$ 121,930, making it the 5th richest country in the world, per capita and highest in Gulf. Liquified Natural Gas is the most important export item. Qatar imports a wide range of products ranging from food products and textiles to machinery. Qatar's most important trading partners are Japan, United States, India, South Korea, Singapore, China, the European Union, and Saudi Arabia.

Japan is the largest customer of Qatari oil followed by India, Singapore and South Korea.

Qatar is known for having a very strong economy and it is one of the world's wealthiest and fastest growing nations. Its economic policy is mainly focused on developing its natural gas reserves but other major industries in the country include liquefied natural gas, crude oil production and refining, ammonia, fertilizers, petrochemicals, the manufacture of steel reinforcing bars, cement and commercial ship repair.

Qatar's economic freedom score is 72.3, making its economy the 31st freest in the 2020 Index. Qatar is ranked 3rd among 14 countries in the Middle East and North Africa region, and its overall score is well above the regional and world averages. The "Arab Quartet" boycott's effect on Qatar has dampened economic growth. The government feels forced to maintain a high level of spending. State-run institutions have launched initiatives aimed at diversifying and localizing aspects of operations, and the economy more broadly, over the next few years. These actions will not ameliorate the problems that dampen economic freedom in Qatar. With more than 25 billion barrels in proven oil reserves and the world's third-largest natural gas reserves and is the largest supplier of liquefied natural gas. Qatar proven natural gas reserves stand at approximately 25 trillion cubic meters. Qatar has also strengthened sectors like manufacturing, construction, and financial services. After winning the bid to host the 2022 World Cup, the government expedited large infrastructure projects including roads, light rail transportation, a new port, stadiums, and other sporting facilities.

Though agriculture does not play a large role in Qatar's economy recent developments has forced the government to reduce its Agriculture imports. Various incentives have been given to agriculture-related start-ups. The government is keen on decreasing Qatar's dependence on oil to fuel its economy by transforming it into a regional trading and tourism hub.

Undeterred by the global economic slowdown, the economy of Qatar, one of the most prosperous and vibrant economies in the Middle East, has continued to perform strongly over the past years. The relatively high oil prices coupled with robust domestic demand maintained the stability of the local economy and boosted investor confidence, which hit rock bottom elsewhere in the world.

Financial and Business Ecosystem ↗

1. Qatar Stock Exchange

The Qatar Stock Exchange is the principal stock market of Qatar. QSE is a full member of the World Federation of Exchanges and was recently upgraded by the MSCI and the S&P Dow Jones Indices.

The primary aim of the Qatar Stock Exchange is to support Qatar's economy by providing a venue for capital raising for Qatari companies as part of their corporate strategy and giving investors a platform through which they can trade a variety of products in a transparent and efficient manner. The Qatar Stock Exchange also provides the public with access to market information and ensures correct disclosure of information.

For more information, visit ***https://www.qe.com.qa/***

2. Qatar Central Bank

The Qatar Central Bank is the central bank of Qatar. It was originally known as the Qatar Monetary Agency it was founded in 1973. Over its history the Qatar Central Bank has increasingly worked in association with other, larger central banks to achieve a stable currency for the country, most recently and notably with the Monetary Authority of Singapore. 3. Qatar Financial Markets Authority (QFMA)

The QFMA was established to regulate and supervise the financial markets in Qatar by taking all the supervisory and regulatory powers needed to exercise its functions under this law. The QFMA officially undertook its responsibility on September of 2007, where the market, the listed companies and financial services companies were informed that the official functions of supervision and regulation were transferred from the market to the Authority after such functions were with the market for the last 10 years.

Key Functions of QFMA:

- Regulate, control and supervise the financial markets.
- Regulate the dealing of the securities activities with fairness, competitiveness and transparency.
- Raise public awareness of securities activities and promote securities' investment and development.
- Monitor the investors' dealing rules governing activities related to trading of securities and other types.
- Implement disclosure policy in order to achieve fairness, transparency and prevent conflict of interests and internal information exploitation.
- Combat the causes of crimes related to the financial markets.
- Enhance liaison, communication and information exchange with foreign financial markets, and regional and international regulators, organizations and institutions to benefit from their dealing methodologies in order to develop the financial markets within the State of Qatar.
- Conduct studies, collect information and compile statistics on the financial markets' activities and publish relevant reports.

4. Qatar Financial Centre

The Qatar Financial Centre (QFC) is an onshore business and financial center located in Doha. It offers its own legal, regulatory, tax and business environment, contributing to the decisive economic development and diversification prescribed by Qatar National Vision 2030.

Supported by QFC's broad range of legal and regulatory services, regulated and non-regulated, that align with international best practice, domestic and international companies can set up or expand their business in Qatar.

QFC allows up to 100% foreign ownership, 100% repatriation of profits, and charges a competitive rate of 10% corporate tax on locally sourced profits, all while integrating businesses into Qatar's swift expansion into a major trade and investment center.

QFC is governed by the following four independent bodies. Its business-friendly ecosystem operates in line with international best practice to ensure clients receive optimal operational, regulatory, and judicial support.

Qatar Financial Centre

5. Qatar Free Zones Authority (QFZ)

Qatar Free Zones Authority (QFZ) is the organization responsible for the development and regulation of the free zones in Qatar. It was established in 2018 with a mandate to build world-class free zones to bring industry-leading companies to the zones that will contribute to Qatar's continued economic growth and diversification.

QFZ operates through its own regulatory framework, granting companies streamlined access to markets in the Middle East, North Africa, Europe and Western Asia. The QFZ team has a very proactive investment attraction and business development ethos; its senior management is committed to attracting companies by connecting them with the growth opportunities available from the Qatar Free Zones. QFZ also facilitates a streamlined set-up process by providing company registrations, licensing, visas and a range of other services for companies to quickly start and maintain operations.

6. Invest Qatar

Invest Qatar serves as Qatar's dedicated investment-promotion agency, established to position the country as a premier destination for global business and foreign direct investment. Through a seamless "one-stop" ecosystem of licensing platforms, sector insights, and strategic facilitation, it supports investors from the initial exploration phase all the way through setting upand scaling operations in Qatar. With Qatar offering full foreign-ownership in many sectors, a low corporate tax rate of 10%, zero personal income tax, and a strategic geographic location bridging major markets, Invest Qatar leverages these advantages to attract investment that fuels the country's economic diversification agenda.

6. Qatar Research, Development and Innovation Council (QRDI)

The Qatar Research, Development and Innovation Council (QRDI) stands at the heart of Qatar's transition to a knowledge-based economy, guiding the nation's research, development and innovation (RDI) ecosystem toward global competitiveness. Established to anchor the country's ambition under the Qatar National Vision 2030, QRDI formulates strategic priorities, directs significant research funding, and fosters collaboration between academia, government and industry. Through its "QRDI 2030" strategy, the council targets key national priority areas and ecosystem transformation elements — with the goal of advancing Qatar's RDI output, creating new technologies, and solving real world challenges.

CA Profession in Qatar ↗

A. State of Accounting and Auditing Services in Qatar

The accounting and auditing profession in Qatar has been growing remarkably with the growth of Qatar. During the early days of formation of the country most of the accounting profession was managed by Asians.

Accounting and Auditing Services as a profession has come a long way in Qatar. The profession has constantly endeavored to keep pace with the ever-growing business needs, stemming from the significant growth in the economy witnessed over the years. From being perceived as a peripheral service, the profession has evolved to become pivotal, in the line of profession. As a result, the number of accounting firms providing audit and assurance services has been on the rise over the years. All Big 4 auditing firms and many international firms are present in Qatar.

The accounting framework in Qatar is generally based on International Standards. Although there is no specified financial reporting framework in the country, the International Financial Reporting Standards ("IFRS") is required to be followed by law. The Central Bank of Qatar has made it mandatory for banks to prepare financial statements based on IFRS. Similarly, the Ministry of Commerce and Industry ("MOCI") has compelled listed and specified non-listed companies to prepare financial statements as per IFRS.

License will be issued to Expatriates also, if they meet the requirements specified by MOCI. However, expatriates acts as Partners/Directors in most of the auditing firms including Big 4s.

CAs are held in esteem as knowledgeable and ethical professionals and are preferred by employers in Qatar. CAs are well positioned in esteemed organizations and banks such as Finance Manager, CFO, CEO, Financial Analysts, etc.

Accounting and Audit Firms registered in Qatar can offer Accounting, Auditing, Taxation, Valuation and other management consulting services depending on the activities approved by the MoCI in their Registration Certificate. Also, care must be taken to avoid offering other services to clients who are being audited by the audit firm.

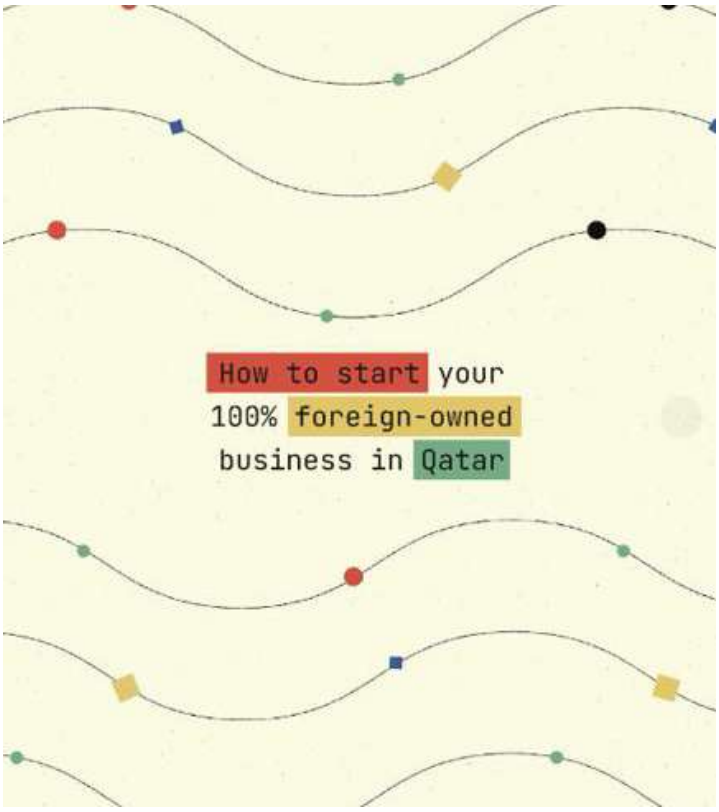

B. Procedure for Auditor Registration

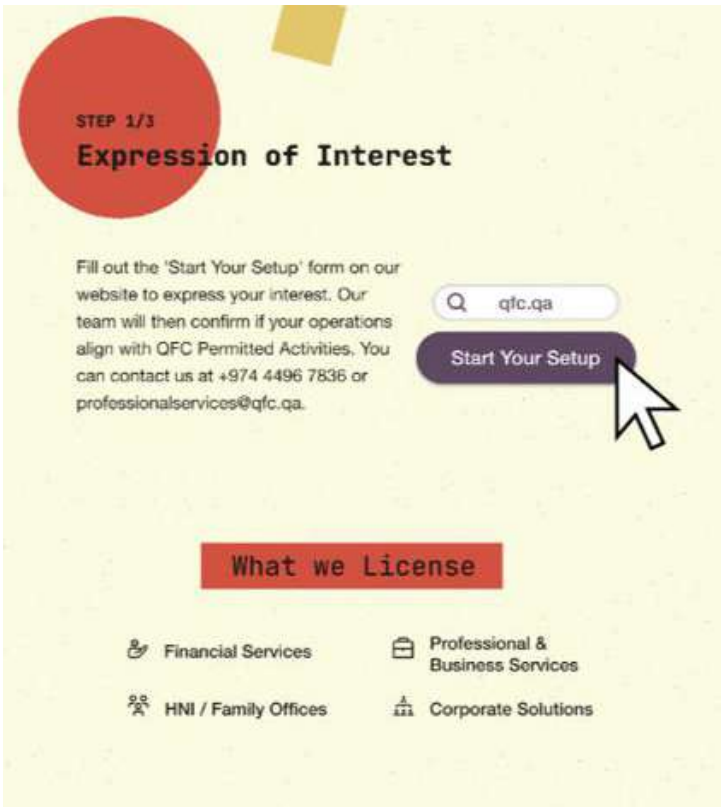

A prospective Chartered Accountant Firm can apply for offering Accounting and Auditing Services by registering with either of the 2 distinct Authorities in Qatar:

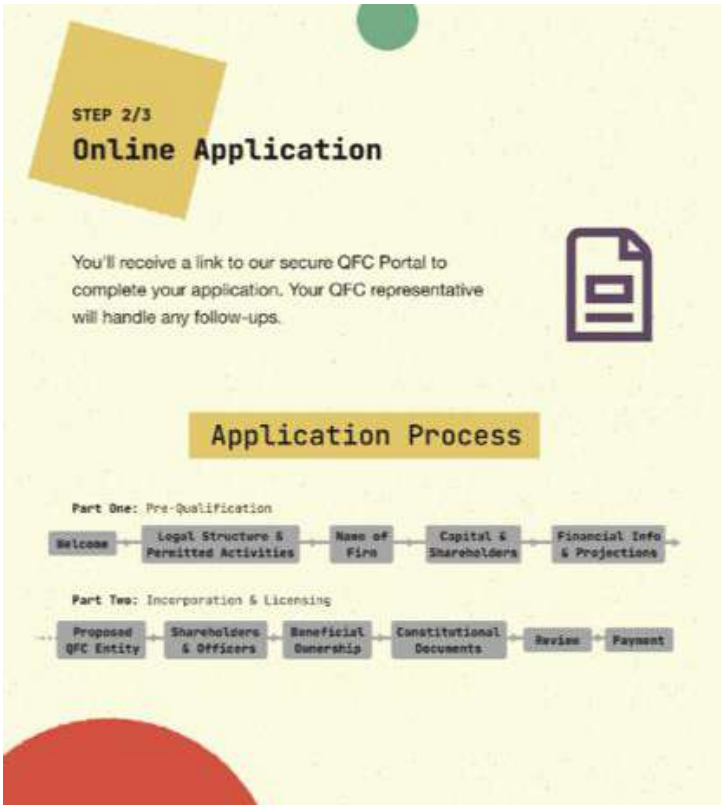

1. **Registering with Ministry of Commerce and Industry (MoCI):** Attested Certificates of the Chartered Accountant should be submitted to the Department of Commerce, Ministry of Commerce & Industry in the form prepared for this purpose along with the supporting documents.

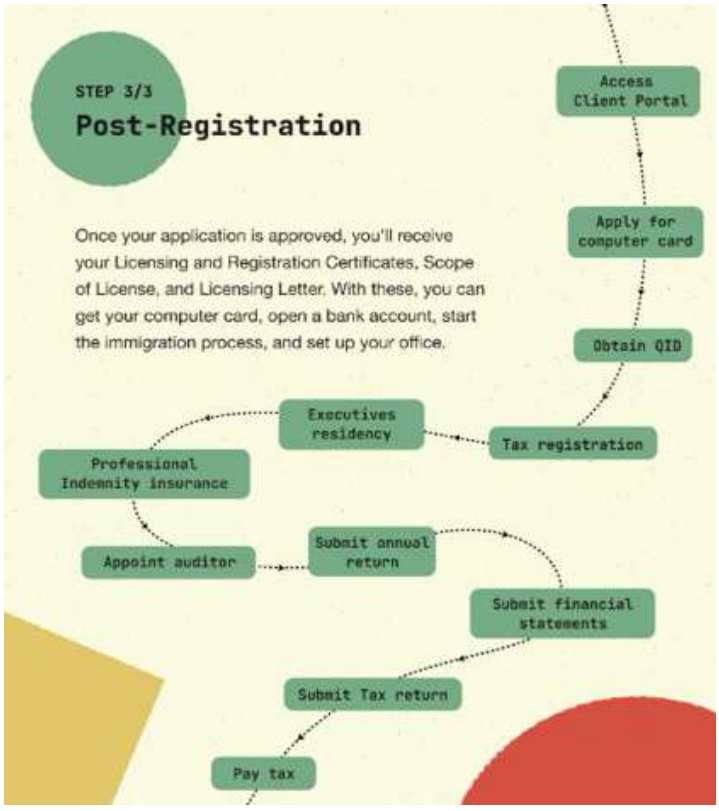

The Committee shall notify the applicant about the decision of acceptance or rejection, the notification must include the reasons for rejection, and those who refuse may appeal against the decision of the Commission to the Minister of Economy and Commerce and the decision of the Minister to decide on the appeal shall be final. In case of acceptance of application for registration the applicant in this case whether an individual or a company would be provided a license approved by Department of commercial affairs at the Ministry of Commerce & Industry, including name, address, nationality, number and date of registration in the Register and the duration of the license and the type of registration. The key criteria here is to have a Qatari Professional Accountant as a partner in the firm.

2. Registering with Qatar Financial Center (QFC): The key advantage here is that an Auditing and Accounting License can be issued with 100% foreign ownership. However, this route is preferable for existing international firms with considerable reputation, brand identity, business strength, vintage, global presence, professionalism and overall standing. Below are the steps in order to apply for registration of a new professional company in QFC.

For the renewal of registration in the Records of Certified Auditors, it should be applied within three months before the expiry date of registration with the payment of application.

External auditors who are eligible to carry out external audit for the listed entities and entities subject to the QFMA's jurisdiction shall register in the QFMA external auditors' list. No person shall carry out the external audit for the listed entities and entities subject to the QFMA's jurisdiction, unless registered in the external auditors' list prepared for this purpose in the QFMA.

Employment Opportunities ↗

While most people work and live in the capital city of Doha, new developments in the oil and gas sector have helped usher the birth of other employment hubs, such as Dukhan and Ras Laffan. As the country's economy continues to diversify, new job opportunities are emerging across all sectors. Companies and government agencies welcome progressive hiring practices, as people around the world look to Qatar for employment.

The government understands that the country's greatest asset is its people. The process of Qatarization involves bringing more and more citizens into helping build the economy, thus laying the foundation for a secure future. The legal rights of workers and employers are protected by the country's Labor Law and its amendments. The State is committed to keeping up with international labor standards to make Qatar one of the best places to work and live.

The salary structure is widely open, and it depends upon qualification, experience, skill sets required, type of industry. Generally, employment contracts are reviewed after the initial probation period which extends up to six months and their salary is revised accordingly.

Sponsorship

With the exception of some short-term visas (such as tourist visas), every non-GCC national who wishes to reside and work in Qatar must have a work visa, which shall be arranged by the sponsor. Residency will be obtained subject to medical checkups and fingerprinting. It is illegal to work for anyone other than your sponsor, unless under a formal (and registered) short-term secondment arrangement.

Visas

There are a variety of different visas and permits obtainable in Qatar, dependent on the individual's status. Non-Qatari workers may not be employed unless they hold a valid work permit. Work permits are obtained from the Ministry of Labour after fulfilling various immigration formalities with the Ministry of Interior, including production of a local employment contract and meeting the following conditions:

- The non-availability of a qualified Qatari worker registered in the registers of the Department to carry out the work in respect of which the work permit is applied for.
- The non-Qatari applying for the work permit shall be in possession of a residence permit.
- The non-Qatari national shall be medically fit.

Employment Contract

Employment contracts are subject to – and must confirm to the requirements of the Labour Law in Qatar. This imposes certain minimum standards, which cannot be contracted out of. In particular, the contract (which must be in Arabic and registered with the Ministry of Labour) will provide end of service benefits after one year's continuous service.

Taxes and Duties

People working in Qatar enjoy tax-free salaries. Income Tax is levied on all foreign businesses operating in Qatar, whether the business is considered a natural person or a legal entity.

The corporate tax rate for foreign-owned companies, as of January 1, 2025, is a flat rate of 10 per cent. The flat rate applies to business revenues only, not those of individuals. Normal business expenses are deductible. Qatar similar to other GCC Nations has prepared a draft law on Value-Added Tax (VAT) in accordance with the unified GCC VAT agreement, which obligates each member state to take domestic procedures for the issuance of local law and procedural policies for the implementation of the tax with a view to implementing the provisions of the agreement. However, the VAT is still not applicable in Qatar.

Banking

A bank account can be opened by the employee after all the residency formalities have been completed. However, as credit facilities are extended to the employee based on their salary, the banks generally insist on receiving a letter of guarantee from the employer under which all the terminal benefits and payments due to the employee will be paid to the bank in case the employee leaves service. In case the employee who has availed credit facilities intends to take up another employment in the Qatar he/she has to discuss the matter with the bank and enter into an arrangement to either close the loan or undertake to continue servicing it during the new employment. A cancellation of the resident visa without the bank's approval can have serious implications.

Schooling

The education system in Qatar at all levels are directed and controlled by the Supreme Education Council (SEC) and the Ministry of Education (MOE). Education in Qatar is very diverse with comprehensive range of government and private schools from different countries to cater to the multi-cultural diversity of its population. The schools offer national and international curricula like the Indian, British, American, etc. While the Indian School starts their term in April, most English-speaking schools starts their term in September. All schools in Qatar are closed in July and August. There is a wide variation in the fees depending on the school type, curriculum and facilities.

Finding the right school for their children is a priority for all parents and can be a cause of concern when moving to a new place. Since Indian nationals are the largest expatriate community in Qatar, there is a good number of Indian schools offering the CBSE (Central Board of Secondary Education) curriculum in Qatar.

FAQs for Articleship abroad

Training of Articled Assistant outside India

A student staying abroad may seek admission in CA Course through qualifying CPT Examination or under Direct Entry Scheme in which a graduate/Post graduate student securing prescribed percentage of marks in respective examination may start articled training after passing one group of Intermediated Integrated Professional Course having completed orientation Programs & ITT. The details of CPT Course and Direct Entry Scheme of CA Course are available on the Institute's website.- www.icai.org it is to note that CA Course examination, practical training and allied Course Curriculum for Indian students or students from abroad are the same.

Often students getting registration in CA Course in India or Abroad have such queries related to articled training which are of following nature. Hence FAQs on training abroad are given below for information.

Q: Can a student registered with the Institute get training outside India?

A: Yes, a student registered with the Institute may enroll for training outside India under an eligible member of ICAI.

Q: Can a Chartered Accountant practicing abroad, train an articled assistant outside India?

A: Yes, a Chartered Accountant is eligible to train an articled assistant provided his/her main occupation is the practice of the profession of accountancy at the time of engaging articled assistants as well as in each of the qualifying years on the basis of which he claims eligibility to train articled assistants. Moreover, the members would be eligible to train articled assistants in accordance with Regulation 43. However, a member associated with a foreign CA Firm in the capacity of partner or paid assistant may also train an articled assistant under certain conditions.

Both eligible firms and candidates have to register themselves online through the articles placement portal. Please visit ***http://bosapp.icai.org*** for details regarding this facility.
